These advances are changing and enriching our urban community's lives...In a New Cyber Nation...**THE GBI-GREAT GAME OF BUSINESS...**is moving forward on the Internet, where ten smart teams of thousands of self-employee member-owners...urban business community players will interact and do business...buy and sell from each other...within a new Cyber Cooperative Incubation Infrastructure System PLATFORM...

In **The GBI-GREAT GAME OF BUSINESS...ONLINE...Ten smart teams interact** with like-minded self-employed **member-owners**...that act as *a new business cooperative incubator community development group*...It's no secret that e-games are Big Business...last year \$6.35 Billion worth of video-

and-computer games were sold at retail...

An additional \$196 Million came from subscription fees to on-line games, a number that is expected to grow to \$ 1.4 Billion over the next five years, according to Jupiter Research...that's because many like-minded people like to play games together...work together for gain with fellow human beings...

The Urban Futurist Organization is predicting that **"The GBI-GREAT GAME Of BUSINESS...at AFRICAN-AMERICAN SYM CITY... will shoot to the top of the scenario motion picture...on-line--- cooperative business incubator development gaming charts...**

It's the e-parallel world meta-universe, and the urban business community has not done that before," says member-owners of the **GBI-THINKUBATOR...Ten smart teams attract millions of like-minded self-employed member-owners subscribing to GBI-BUSINESS GAMES...like...THE AFRICAN-AMERICAN SYM CITY...ON-LINE...**

A BLACK BUSINESS INCUBATOR COMMUNITY DEVELOPMENT SITCOM...AN INTERNET URBAN BUSINESS COMMUNITY DEVELOPMENT GAME...following the story of **ten smart teams** of teacher, leader, mentor, partner...and their self-employed member-owner young people in self-employment training... **Ten smart teams** in simulated common community wealth creation...

Member-owners of a **model virtual business incubator** company that help the **ten smart teams** get through their daily lives as they **build** cooperative member-owned **virtual office buildings...homes**, hold down jobs in their member-owned urban business community, **work with other like-minded self-employed member-owners** and make new friends in their new Cyber Nation...

Ten smart teams through member-ownership, **control** all urban business community actions that lead to **positive outcomes**...the whole *CYBER PARK USA*, experience is filtered through "**GBI'S** Satiric distillation of 200 teacher, leader, mentor, partner, in strategic alliance with 1000 young people in self-employment training...**member-owners**... **together** they practice cooperative human behavior...within a urban business community support service system...

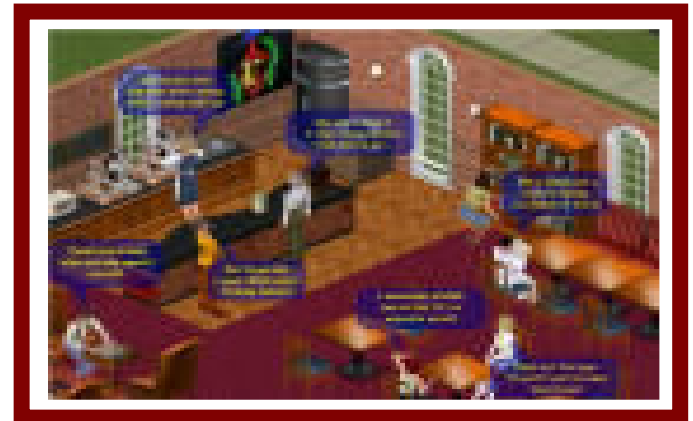

Ten **smart teams** keep the urban community in **cooperative working order**... THE GBI-GREAT GAME OF BUSINESS'S premise is for **ten smart teams** to **share** cooperative user-friendly interactive communication interface... **1200** member-owners **make** the **model** urban business community a **runaway success** with all demographics that are like-minded, who want to live and let live...

With **GBI-BUSINESS GAMES**...The AFRICAN-AMERICAN SYM CITY ON-LINE...every self-employed

member-owner... **Thousands** of cooperative business incubator community development game players **work together**..."BUILDING THE CORPORATION OF THE FUTURE"...

In the member-owned model new media small business industry... **Ten smart teams** of operators **provide** technical direction to their **ten smart teams** of multi-players on and off-line...role-playing in "**THE GBI-GREAT GAME OF BUSINESS**..."

GBI'S CYBER PARK USA, ON-LINE...**Ten smart teams**...**1200** multi-players...cooperative business incubator community development games...

The *CYBER-PARK USA*, ...New CYBER NATION...in an virtual e-parallel world...on the Internet... cooperative business incubator community development gaming...has been more than 30 years in the making...the **1200 ten smart team multi-user member-owned model virtual business incubator company**...**ten smart teams** role playing in The GBI-

GREAT GBI GAME OF BUSINESS... e-parallel world chat...3-D on-line cooperative business incubator development chat conference rooms...

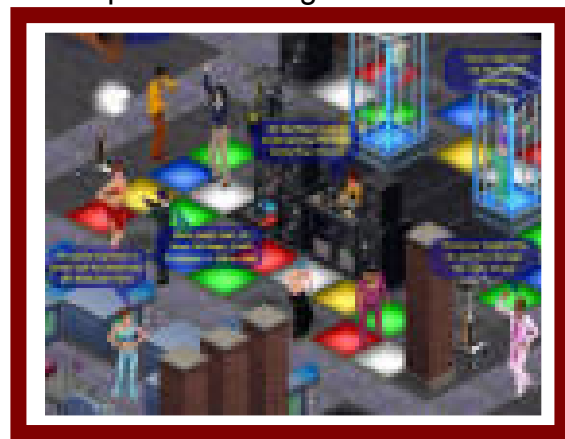

CYBER PARK USA, operates **AFRICAN-AMERICAN SYM CITY...THE BUSINESS ENGINE FOR BLACK MATRIX USA.US...** on a *cooperative incubation infrastructure system platform...*

The **AFRICAN-AMERICAN SIMULATION CITY...draws** on real life in "**Black Matrix USA.US...** with an urban business community of start-up companies that are member-owned by **ten smart teams** of like-minded company member-owners...that **together member-own the E-Banking and Insurance** support service system, and most other real-life analogues the urban business community can think of...the **key message ten smart teams** have, is that by "**Bringing Their Strengths Together...** they reach their collective better future... **Ten smart teams** are urban business **community hero's... business stars...** they **share** the gift of gab, and are clever in creating urban business community common **wealth...** within a new support service system...**ten smart teams** made-up of thousands of self-employed member-owners, are all **independent and inter-dependant** operating together in a new Cyber Nation...

In **BLACK MATRIX USA.US...TEN SMART TEAMS...LIVE COOPERATIVE E-PARALLEL**

LIVES...THEIR SECOND NATURE...THEY UNDERSTAND ITS THEIR OUTLET FOR **COOPERATING-TO-COMPETE...** in a competitive world...

Ten smart teams present "**IN-FOCUS FORUMS**"...for cooperative business and social interaction...they add-value...as new cooperative business and social elements...an on-line cooperative business incubator community development action game...

Ten smart teams, in a variety of **scenario motion pictures...** are **rescuing** the wealth inherit in the Black community...Every day...**ten smart teams** of thousands of self-employed member-owners "**Buy and Sell from each other...** in "**VIRTUAL BLACK WALL ST, AND MADISON AVE,...BUSINESS DEVELOPMENT GAMING...**

Ten smart teams work together to produce the **first "video urban business community development"**... support service system **GAME...** In the game the urban business community goes wireless...sharing connections in a new Cyber Nation...

Urban Business Community 2008 and Beyond...is an inspired inner city of "Hero's...ten smart teams of inner city cooperative leaders...business incubator development role players ... socializing and business building places within a cooperative atmosphere...

GBI-BUSINESS GAMES, Where **ten smart teams** cleverly mixes urban business community achievement with interaction...build **Black Matrix USA.US SYM CITY**...using collective skills...they work on the fast track...by attracting ten smart teams of young self-employed member-owners in training...ten smart groups working together as One...

Ten smart teams of cooperative achievement---oriented cooperative business incubator community development Gamers...Role Players...Bringing their Strengths Together...with the

AFRICAN-AMERICAN SYM CITY ON-LINE...Its all about urban business community...know-how

networking...

THE GBI-GREAT GAME OF BUSINESS...is a support service system, manufacturing new knowledge products...On top of that...**Ten smart teams**, that operate together, in strategic alignment share common community wealth creation goals...Their goal is to secure in-business game "sponsorships"...

Ten smart teams plan to hand over a cooperative economy that's supported by ten living system structures...**ten smart teams** of **CYBER PARK USA**,...**AFRICAN-AMERICAN SYM CITY** SUBSCRIBERS...50 VIRTUAL STATES...CONTROLLED BY ITS **TEN SMART TEAMS OF BUSINESS GAME PLAYERS**...

An urban business community of players...**playing** with ten pieces that make-up the whole...**ten smart teams create** an urban business community of **virtual office buildings**...they **envision** self-employed member-owners **buying** cooperative real-state...**member-owning** clothing stores...buying and selling cooperatively...and much more...in the **GBI-GREAT GAME OF BUSINESS**...

The **GBI-GREAT GAME OF BUSINESS...ON-LINE**...stands out because of cooperative business and social interactions...business incubator development...is business games foundation...not an after thought...**Ten smart teams pool** their **money**, sharing **resources**, sharing **risk and reward**...

Ten smart teams of **GBI-BUSINESS GAMES** designers ... building the business game level playing field...spending their time and money to buy and cooperatively member-own their urban community...

Ten smart teams act as a powerful collective...urban business community sims on-line...provides multiple ways to win...cooperative business incubator development gamers...role players socializing and building a business community of start-up businesses in a CYBER PARK USA, place with cooperative atmosphere...

Ten smart team member-owners of cafes, book stores, art institutes and shopping centers... office buildings full the virtual sky...ten smart teams demonstrate their nascent intelligence in this role-playing adventure...on one level, this is an scenario motion picture...TV PILOT---THE CREW...is video-taping the 1200 member-owners of the model urban business community...

But the real goal, of ten smart teams of designers of The GBI-GREAT GAME OF BUSINESS...is to attract like-minded people to the cooperative urban business community...business intelligence in their midst...this is meant to be an experimental common community wealth creation tool to uncover aspects of cooperative human psychology...and in that respect, operating in the BLACK MATRIX USA.US, is urban business community success...

Ten smart teams introduce an unbridled creative business incubator development "collective"...BUSINESS INCUBATOR INC.US...That falls somewhere between a Think Tank and an cooperative business incubator for innovative new ideas to simulate and

model in a new Cyber Nation...

The concepts are eccentric...ten smart teams are focused on a cooperative incubation infrastructure system...they act as new media experts, share the cooperative member-ownership vehicle, that takes the urban business community into the video business game e-parallel world...

Ten smart teams work together to sell the idea for AFRICAN-AMERICAN SYM CITY...A member-owned player controlled modeled simulation...a dynamic urban business community controlled simulation of a dynamic cooperative CYBER PARK USA, ...CYBER METROPOLIS...

Ten smart teams share an amazing cooperative appetite for understanding the human condition...BUSINESS INCUBATOR INC.US...is being organized around the mutual interest of the member-owned model urban business community...

The member-owned model "Digital Village" will nurture ten smart teams in the use of interactive communication technology...in post-production, virtual business community---style graphics, over laid onto the footage to communicate with the viewers in a Black Matrix USA.US...secret script...

Ten smart team leaders explain that they were appropriating urban community visual styles in the model **AFRICAN-AMERICAN SYM CITY** ... as far as the urban futurist know, nobody has done this...

Ten smart teams share experimentation on their know-how network...creating an AFRICAN-AMERICAN ...**Science of Seeing** Channel...**ten smart teams** of programmers operating in the "new

visual” idiom...to **describe** the urban business community working together...they share a stream of new researched ideas and a bounteous video...business incubator development game...common community wealth creation process in action...

The urban business community **on-line** will have a bright collective better future...**ten smart teams** have hit upon that shared idea that is both distinctive and mainstream in a new Cyber Nation...that operates in an e-parallel world...in a cooperative place...CYBER PARK USA,...

Ten smart teams are designing a **text-to-speech....voice synthesis** business development platform...the urban business community story come to life...**Ten smart teams cooperating-to-compete** in an e-parallel world.
